

ROSE COMPUTERS AND NETWORKS MANAGED IT SERVICES

**WE HAVE THE
TECHNOLOGY. WE CAN
REBUILD IT. WE CAN
MAKE IT BETTER THAN IT
WAS. BETTER,
STRONGER, FASTER.**

YOUR IT!

The majority of business operations occur digitally. It is our job to ensure that all aspects of your company's information technology are running smoothly.

Benefits of Managed IT Services

- Focus on your business
- Expertise your business needs
- Comprehensive security support
- Control IT costs
- Improve scalability
- Stay current
- Minimize downtime
- Better protection/compliance

**-IT IS-
YOUR
TIME**

A managed service provider (MSP) is an outsourced, third-party expert tasked with the management and delivery of your IT services.

PROACTIVE

- Windows, Mac, and Linux Operating system events and errors
- Hardware and system events example: system or drive errors
- Software events example: application crashes and errors
- Anti-virus alerts example: Installation statuses and critical infection on "user-pc"
- Network Monitoring
- Windows Patches example: Security updates, critical updates, cumulative updates, etc.
- Microsoft 365 and GSUITE Cloud Services alerts example: Security audits and alerts via Microsoft Defender for Cloud
- Device life cycle asset management

**Don't rely on the reactive
service model!**

MANAGED IT SERVICES

Simplified IT

We allow you to focus on your core business by having software and data systems that function properly.

Take care of your business

You don't have time to manage your network, but we do. IT is what we do!

Budget-Friendly

We estimate our tiers based on the number of locations, device counts, network security needs, and labor requirements. All our agreements include IT consultation and unlimited labor support.

Outsourcing IT to an MSP can help save your business time and money by offering a team of experts to manage your IT infrastructure at a lower cost.

OUR MISSION

To ensure our partner's success by providing innovative, dependable, and proactive IT services.

OUR BELIEFS

IT businesses must do more than simply provide products and services; we offer comprehensive solutions that address the unique challenges and needs of our customers. By adopting a solutions-oriented approach, we differentiate ourselves from our competitors and build stronger, more meaningful relationships with our clients. This involves understanding the specific pain points customers face and then tailoring offerings to meet those needs in a holistic and integrated manner.

WHY WAIT UNTIL IT BREAKS?

Managed services offer an alternative to the break-fix or on-demand outsourcing model. We maintain a proactive approach for our Managed Service Partners.

Employing systems that monitor, report, and remediate issues before they become critical issues.
